

An aerial photograph showing a large solar farm in the foreground, with rows of solar panels extending towards a body of water in the background. The solar panels are arranged in a grid pattern, and the water is a deep blue color. The text 'Sauleda' is overlaid on the image in a white, serif font.

Sauleda

**SOLAR PRO
MEDITERRÁNEO**

MEDITERRÁNEO

The Mediterranean culture, with its eternal beauty and its deep values, feeds the new Sauleda designs. La cultura mediterránea, con su belleza eterna y sus valores profundos, alimenta los nuevos diseños de Sauleda.

“The inhabitants of the Mediterranean feel beauty with greater intensity”. “Los habitantes del Mediterráneo sentimos la belleza con mayor intensidad”.

Antoni Gaudí

The Mediterranean is culture and emotion. It's a calm sea and an invigorating sun with rays of light that dissolves in the shadow and a very pure blue sky that sees the birth of our way of understanding beauty.

The Greek and Roman canons, the golden ratio... Mediterranean culture is a creative wisdom that transforms the simple into sublime taking care of raw material without masking it. You see it in the architecture, art, gastronomy, but also in a lifestyle that values hedonism, everyday pleasures and sensory enjoyment that small details offer us.

Today that rich and vibrant substance feeds, in a particularly energetic form, global culture. It is the honest, the familiar, the open, the sociable, the optimistic, deep values, the spreading of a joie de vivre that has become universal.

These are the same values that feed the soul of Sauleda. Born in a small fishing village, on the shores of a green, blue and turquoise sea, the essence of this hundred-year-old brand is in the family's hard work for generations to offer technical fabrics that

promote well-being as well as symbolize optimism and quality of life.

This technically perfect material is destined to create fabrics with vibrant colors, spaces, shade and comfort that promise happiness in gardens and terraces, fun in leisure places, communication in work spaces or protection in transport.

With the honesty of understanding these values deeply as part of their own history, Sauleda creates technical fabrics that transmit and promote the style of Mediterranean life.

Because Sauleda is not only the technical answer to your needs, it is also perfectly functional as well as a vital concept and full of emotions.

Mediterráneo es cultura y es emoción. Es un mar tranquilo y un sol tonificante de juegos de luz disueltos en la sombra y un cielo azul muy puro que vieron nacer nuestra forma de entender la belleza.

El canon griego, el romano, la proporción áurea... la cultura mediterránea es una sabiduría creadora que transforma lo sencillo en sublime cuidando la materia prima sin enmascararla. Sucede en la arquitectura, en el arte, en la gastronomía, pero también en un estilo de vida que pone en valor el hedonismo, los placeres cotidianos y el disfrute sensorial que nos ofrecen las pequeñas cosas.

Hoy esa sustancia tan rica y vibrante alimenta, de una forma especialmente enérgica, la cultura global. Su cualidad honesta, familiar, abierta, sociable, optimista, de valores profundos, contagian una alegría de vivir que se ha vuelto universal.

Son estos mismos los valores que alimentan el alma de Sauleda. Nacida en un pueblecito de pescadores, a orillas de ese mar de aguas de verdes, azules y turquesas, la esencia de esta marca centenaria está

en el esfuerzo familiar durante generaciones para ofrecer tejidos técnicos que fomentan el bienestar y que simbolizan también optimismo y calidad de vida.

Esa materia técnicamente perfecta está destinada a crear tejidos de colores vibrantes, espacios de sombra y confort que prometen felicidad en jardines y terrazas, diversión en lugares de ocio, comunicación en espacios de trabajo o protección en el transporte.

Con la honestidad de conocer bien esos valores como parte de su propia historia, Sauleda crea tejidos técnicos que transmiten y fomentan el estilo de vida mediterránea.

Porque Sauleda no es solo una respuesta técnica y funcional perfecta. También es un concepto vital y lleno de emociones.

SOLAR PRO

**To create shade is to give a protective balm,
a parenthesis of light and poetic architecture which
cares for and protects us.** Crear sombra es dar un
bálsamo protector, un paréntesis de arquitectura ligera
y poética que nos cuida y nos resguarda.

1 LATEST TRENDS IN DESIGNS, COLOURS AND TEXTURES ÚLTIMAS TENDENCIAS EN DISEÑOS, COLORES Y TEXTURAS

Sauleda creates environments and emotions, bright colors, modern designs, comfort and new trends. It goes beyond manufacturing technical fabrics, creating authentic furnishing solutions. The result? Designs and shades that inspire solutions for every moment. Choosing a Sauleda product means having the support of a great brand and the widest market. Sauleda crea entornos y emociones. Colores vivos, diseños modernos, confort y nuevas tendencias. Va más allá de fabricar tejidos técnicos, crea auténticas soluciones de decoración. ¿El resultado? Diseños y tonalidades que inspiran soluciones para cada momento. Elegir un producto Sauleda significa contar con el apoyo de una gran marca y el catálogo más amplio del mercado.

2 ENERGY SAVING AHORRO ENERGÉTICO

Choosing a suitable sun protection fabric significantly improves the energy performance of buildings by clearly reducing the energy consumption during the hottest months. Elegir un tejido de protección solar adecuado mejora de forma importante el rendimiento energético de los edificios al reducir de forma evidente el consumo energético durante los meses de más calor.

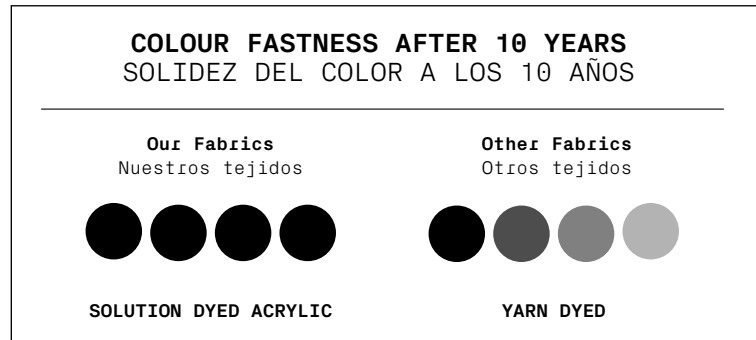

3 UP TO 10 YEARS GUARANTEE GARANTÍA HASTA 10 AÑOS

Sauleda continually verifies the durability of its technical fabrics, which is why its guarantee policy is extremely rigorous. After many years and tests carried out in prestigious laboratories, the results show that Sauleda fabrics remain in perfect condition for more years than their own guarantee indicates. In its rigorous commitment to the customer, the brand offers a guarantee of up to ten years in the event of abnormal deterioration of the fiber and color of the fabric under normal conditions of sun exposure and atmospheric agents, counting from the date of installation. You can see the warranty conditions at www.sauleda.com. Sauleda verifica continuamente la durabilidad de sus tejidos técnicos, por ello su política de garantía es extremadamente rigurosa. Después de muchos años, tras pruebas realizadas en prestigiosos laboratorios, los resultados muestran que los tejidos Sauleda se mantienen en perfecto estado más años de los que indica su propia garantía. En su riguroso compromiso con el cliente, la marca ofrece hasta diez años de garantía en caso de que se produzca un deterioro anormal de la fibra y del color del tejido en condiciones normales de exposición solar y de agentes atmosféricos, contando desde la fecha de instalación. Puede ver las condiciones de la garantía en www.sauleda.com.

4 MAXIMUM COLOR DURABILITY AND WEATHER RESISTANCE MÁXIMA DURABILIDAD DEL COLOR Y RESISTENCIA A LA INTEMPERIE

Solar Pro fabric is dyed directly into the acrylic fiber mass, ensuring optimum color resistance to UV rays and guaranteeing color durability and weather resistance over time. It is a process incomparable with the ordinary dyeing processes of other brands in which the thread of the fabric is simply dyed, which means that the dye only superficially penetrates into the outer layers and, consequently, the color does not survive the passage of time. El tejido Solar Pro es tintado directamente en la masa de la fibra acrílica, asegurando una óptima resistencia del color a los rayos UV y garantizando la durabilidad del color y la resistencia a la intemperie a lo largo del tiempo. Es un proceso incomparable con los procesos ordinarios de tintado de otras marcas en los que se tinta simplemente el hilo del tejido, lo que hace que el tinte solo penetre superficialmente en las capas externas y, en consecuencia, el color no resiste el paso del tiempo.

5 EASY CLEANING AND MAINTENANCE FÁCIL LIMPIEZA Y MANTENIMIENTO

The Sauleda Protector finish repels water and dirt, making it easy to clean and maintain the fabric year after year. Only these four basic tips should be followed. El acabado Sauleda Protector repele el agua y la suciedad, facilitando la limpieza y el mantenimiento del tejido año tras año. Solo deben seguirse estos cuatro consejos básicos:

- **Vacuum dirt periodically. If necessary, clean with neutral soap, a sponge and water at a maximum temperature of 30°C. Rinse only with water.** Aspirar la suciedad periódicamente. Si es necesario, limpiar con jabón neutro, una esponja y con agua a una temperatura máxima de 30°C. Aclarar solo con agua.
- **Always let the canvas dry completely before rolling or folding it.** Dejar secar siempre completamente la lona antes de enrollarla o plegarla.
- **Never use abrasive products.** No utilizar nunca productos abrasivos.
- **Always store the awning in a cover during the winter months.** Guardar el toldo siempre en una funda durante los meses de invierno.

PLAINS LISOS

Sauleda manufactures more than 130 solid colors in 100 % mass-dyed acrylic fabrics to enjoy optimal sun protection. Sauleda fabrica más de 130 colores lisos en tejidos 100 % acrílicos tintados en masa para disfrutar de una protección solar óptima.

MOSAIK

With a technology that allows the creation of color combinations never seen before, Mosaik offers a unique yarn with variations of tones and shapes in every meter to give free rein to the imagination. This technology uses randomness to create a unique thread in every one of its meters. Con una tecnología que permite crear combinaciones de colores nunca vistas hasta la fecha, Mosaik ofrece un hilo único con variaciones de tonos y formas en cada metro para dar rienda suelta a la imaginación. Esta tecnología utiliza la aleatoriedad para crear un hilo único en cada uno de sus metros.

FORCE

Manufactured with high-end acrylic fiber (FC), Force fabric offers solutions and multiple possibilities in all those situations where it is necessary to add extreme resistance to traction and tearing as well as greater lightness. Its UV protection indexes make it an ideal fabric for protection in special outdoor situations. Force fabrics are available in different widths to facilitate the manufacturing process.

Fabricado con fibra acrílica de alta gama (FC), el tejido Force ofrece soluciones y múltiples posibilidades en todas aquellas situaciones dónde sea necesario añadir una resistencia extrema a la tracción y al desgarro así como mayor luminosidad. Sus índices de protección UV le convierten en un tejido idóneo para protección en situaciones especiales a la intemperie. Los tejidos Force se disponen en diferentes anchos para facilitar el proceso de confección.

GREEN®

A GLOBAL INNOVATION UNA INNOVACIÓN MUNDIAL

Green® is quality of life. The fabrics treated with this finish, designed by Sauleda and Pureti clean and purify the air through photocatalysis. They remove contaminants such as NOx, SOx and VOCs. Sauleda's rigorous commitment to the environment and people's health. Green® es calidad de vida. Los tejidos tratados con este acabado, diseñado por Sauleda y Pureti, limpian y purifican el aire mediante la fotocatalisis. Eliminan contaminantes como NOx, SOx y COVs. Un riguroso compromiso de Sauleda con el medio ambiente y con la salud de las personas.

SOLRAIN

This is the new generation of all-terrain acrylic fabrics from Sauleda, adapted to withstand both the elements of the sun and the rain. Its UV protection indexes and its high water column give it all the qualities that should be demanded of a fabric for outdoors use. It offers solutions and multiple possibilities in all those situations where it is necessary to add a safeguard for the rain, as well as special solar and thermal protection. For proper functioning, it must be made with the resin-coated side inside. Esta es la nueva generación de tejidos acrílicos todoterreno de Sauleda, adaptados para soportar tanto las inclemencias del sol como de la lluvia. Sus índices de protección UV y su elevada columna de agua le confieren todas las cualidades que deben exigirse a un tejido aplicado siempre en la intemperie. Ofrece soluciones y múltiples posibilidades en todas aquellas situaciones dónde es necesario añadir una salvaguarda para la lluvia, además de una protección especial solar y térmica. Para su adecuado funcionamiento se debe confeccionar con la cara resinada en el interior.
